Suggestions

Class is great. Instructor makes subject interesting. Assignments are well structured. I've learned a lot.

Kate is an excellent teacher. I have found her feedback most helpful when it comes to refining my projects.

I very much enjoy the assignments.

I think the pace of this class is going at a good speed. Nothing is too overwhelming and the professor makes class fun. Perhaps she could do a little more one on one time

Kate's advice and suggestions are beyond helpful. She does so in a way that allows each student to see ways of improving assignments without directly giving an answer.

I personally don't find typography as intuitive as some other aspects of graphic design, but Kate teaches a great course that makes me excited about the subject matter. I definitely understand its importance after this short time, and want to develop myself more in this area. Overall, excellent material and instructor!

For me, this is a very challenging course, but I feel as though I am learning through trial and error (which is great). The assignments are arranged in a way that makes sense and helps us to progressively learn. Kate gives us all the information we need, and is always there if we ever need extra help. She's great! I hope to have her as a professor throughout my graduate degree.
